

# SUSSEX COUNTY MUNICIPAL UTILITIES AUTHORITY

## SOLID WASTE FACILITY

### ACCEPTANCE CRITERIA AND APPLICATION FOR THE IMPORTATION OF CLEAN SOILS

1. All requests for the delivery of clean soils to the Sussex County Municipal Utilities Authority Solid Waste Facility (SCMUA Landfill) must be accompanied by this application. No soils are to be delivered to the facility until such time as the application has been approved by SCMUA.
2. The soil must be uncontaminated "clean fill" from a single, known source of virgin material, as per the definition outlined in N.J.A.C 7:26 - 1.4: "Clean fill" means uncontaminated, non-water soluble, non-decomposable (volatile solids not to exceed 12 percent by weight), inert solid such as rock, soil, gravel, concrete, glass, and/or clay or ceramic products. Products generated from an approved Class B recycling facility must be certified as clean fill and the application must include chemical analysis of the material.
3. Upon arrival to the facility, bills of lading or manifests shall be provided for each load delivered to the Authority to document the source(s) of fill. The documentation shall include:(1) The name of the Applicant and relationship to the source of the fill (owner, contractor, agent); (2) The location where the fill was obtained, including the street, town, lot and block, county, and state; and (3), The document shall be signed by the Applicant, Generator, or Agent, as well as the trucking company.
4. Soil analysis may be requested by the SCMUA, at their discretion, on all soils generated from sites which are deemed public/government, commercial or industrial, Class B recycling facilities or soils generated from multiple locations. Until such time as soil sources are certified to be clean soils, they shall be considered by SCMUA to be "potentially contaminated ID-27 soils". An additional fee for laboratory data review may apply.
5. The particle size distribution of the soil shall conform with the landfills' daily intermediate cover soil specifications (Boulders, excessive rock, heavy clays or fined grain materials such as silt are not acceptable). A copy of these specifications are available upon request.
6. A SCMUA representative may inspect all public / governmental / commercial / industrial sites, as well as any sites which will produce over 1000 yards of soil, prior to approval.

SCMUA Application For Acceptance of Clean Soil

**1. Applicant Information**

Name of Applicant: \_\_\_\_\_

Contact Individual: \_\_\_\_\_

Title: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Telephone: \_\_\_\_\_ Fax: \_\_\_\_\_

Email: \_\_\_\_\_

Location of Soil: \_\_\_\_\_

Block: \_\_\_\_\_ Lot: \_\_\_\_\_ Township: \_\_\_\_\_

**2. Site Owner, if different**

Company or Owner Name \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Telephone: \_\_\_\_\_ Fax: \_\_\_\_\_

Email: \_\_\_\_\_

SCMUA Application For Acceptance of Clean Soil

**3. Site History, check all that apply:**

Residential                       Agricultural   
Commercial                       Municipal   
Industrial                       Roadway/Utility/Linear Construction   
NJDEP Regulated Site

**4. Quantity of Soil**

Will the delivery of soil be ongoing?     Yes     No

Proposed dates of soil movement: \_\_\_\_\_

Maximum amount delivered per day:    \_\_\_\_\_ yd<sup>3</sup> \_\_\_\_\_ trucks

Total amount to be delivered:            \_\_\_\_\_ yd<sup>3</sup> \_\_\_\_\_ trucks

**5. Sources of Soil, check all that apply:**

Construction / Landscaping excavations  
 Utility excavations  
 Remedial excavations  
 Other, describe: \_\_\_\_\_

**6. Soil Types, check all that apply:**

Primarily Clay                       Primarily Sand  
 Primarily Gravel                       Topsoil  
 Clay and Gravel                       Sand and Gravel  
 Clay and Sand                       Silt  
 Dredging                       Other: \_\_\_\_\_

**7. Transportation Information**

Company Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Telephone: \_\_\_\_\_ Fax: \_\_\_\_\_

Email: \_\_\_\_\_

**8. Generator Certification**

I, the Undersigned, under penalty of law do hereby certify the material submitted for acceptance at the Sussex County Landfill, is clean material which does not contain any contaminant exceeding any NJDEP remediation standard.

The undersigned does hereby warrant and represent that with respect to the materials submitted to SCMUA: 1) That such materials meet the definition of "Clean Fill Soil" as stated herein, and contain no deleterious material or solid waste; 2) That all descriptive material provide in this application as well as any analytical documents including test results submitted by the customer concerning such material are complete and true; and 3) That the customer has lawful title to such material and is authorized to engage in this transaction.

In the event that any such material does not meet the above warranty, or if contaminants or deviations from "Clean Fill Soil" standards are identified within such material, the Applicant agrees to immediately remove same from SCMUA facility when directed, and dispose of it in accordance with applicable law. Moreover, Applicant does hereby agree to indemnify and hold harmless SCMUA for any storage, transportation, treatment or other costs or penalties, including reasonable attorney's fees that SCMUA or any third party may incur as a result thereof. I certify that the foregoing is complete and accurate and understand that if anything is false, I am subject to punishment by law.
