Important Note

Each year, as required by the New Jersey Department of Environmental Protection (NJDEP) Recycling Regulations, NJAC 7:26A-10.3 (2009), all businesses and institutions, including multifamily housing owners or their agents, must report the weight in tons of materials collected for recycling from their premises. *Every Sussex County municipality is required by law to file an annual report documenting the tonnage with the NJDEP.* To file this report, information is needed from all commercial and institutional establishments in town. This report also verifies that you are recycling, and maintaining records of your recycling efforts as required by ordinance.
